## THANK GOODNESS FOR Thanksgiving Foods

Thanksgiving menus get a bad rap for being rich and high in fat. But many traditional Thanksgiving foods actually have some impressive qualities. They contain several nutrients believed to be good for your health.

HOLIDAY FAVORITE	WHAT MAKES IT GREAT
Turkey	An excellent source of protein. Ounce for ounce, light meat is one of the leanest and lowest calorie sources of protein you can eat.
Sweet Potatoes	Rich in beta-carotene and vitamin C, plus a good source of potassium. Also supply phytonutrients that may reduce the risk of some cancers.
Cranberries	Provide vitamin C and phytonutrients that may reduce the risk of some cancers. Regular consumption of cranberry juice may reduce the risk for urinary tract infections.
Nuts	Magnesium, fiber and heart-healthy monounsaturated fats.
Pumpkin	Carotenoids, which may help keep eyes healthy and lower the risk for heart disease and some cancers.

### THANKSGIVING TRIMMINGS

A few adjustments in how you prepare family favorites will make your feast more fit. Trim your table with these tips:

**Turkey:** Skip self-basting birds—they can be higher in fat. Keep meat moist with fat-free chicken or vegetable broth, wine or apple cider.

**Gravy:** Shave off all sorts of calories by skimming the fat off meat drippings before you prepare the gravy. Option 2: Use a vegetable stock to make gravy.

**Stuffing:** Boost the vitamins and phytonutrients by using whole-grain bread cubes and adding vegetables such as carrots, celery, green bell peppers, mushrooms and zucchini. Dried fruits offer a touch of sweetness plus plenty of vitamins and fiber. Mixing in wild rice or bulgur gives your family and guests more on the vitamin, mineral and fiber front. If sausage is the secret to your stuffing's success, substitute turkey sausage for pork—it contains two-thirds less fat.

**Greens:** Put them on the menu—they infuse color and brightness to the meal, not to mention all the healthful substances that lie within. Possibilities: a romaine and spinach salad; cooked broccoli; green beans.

**Dessert:** Make pumpkin pie using evaporated fat-free milk instead of cream or whole milk. Replace the traditional pastry crust with a gingersnap or graham cracker one.

# Turkey Basics

The favorite part of any holiday feast deserves to be treated right! No matter how you decide to serve up this noble bird, here are some great tips and techniques to help you prepare the perfect turkey.

## TURKEY TIPS

1. Generally, the younger the turkey, the more tender the meat will be. Turkeys available today will usually be labeled "young," meaning 4 to 6 months old. The label may also indicate the sex (hen or tom).
2. When figuring quantities for whole turkeys, allow about 1 pound per person. The amount of sliced cooked turkey is about 50 percent of the weight of a whole turkey.
3. Before cooking, make sure you start with a fully thawed turkey. Cooking charts and doneness times are based on a thawed turkey, and times and doneness can vary greatly if the turkey is not completely thawed.
4. For the moistest bird possible, don't overcook it. Use a meat thermometer to test for doneness. The internal temperature should reach 180° for whole birds and 170° for whole turkey breasts and bone-in or boneless pieces.
5. Turkey Help: If you have unanswered questions, you can call the USDA Meat and Poultry Hotline (800-535-4555), Butterball Turkey Talk Line (800-323-4848) or Reynolds Kitchens Turkey Tips Line (800-745-4000). And for more great ideas, visit [BertysCrock.com](http://BertysCrock.com).

## THAWING

**Quick Thaw:** Cover frozen turkey (in original packaging) with cold water, changing the water frequently. Allow about 30 minutes per pound for whole turkeys.

**Gradual Thaw:** Refrigerate frozen turkey (in original packaging) on a tray to collect liquids. Allow about 24 hours per 5 pounds of whole turkey.

After thawing, remove the neck and giblets from the neck and body cavities. Rinse turkey inside and out with cold water, and drain. A thawed turkey may be refrigerated up to 2 days.

### THAWING TIME IN REFRIGERATOR

## STUFFING

Prepare any stuffing just before stuffing the turkey. Pack the stuffing loosely into the neck cavity. Then, fasten neck skin to the back with skewers, and fold wings across the back with the tips touching. Next, loosely fill the body cavity. Tuck the drumsticks under the band of skin at the tail (or tie or skewer to the tail). When done, the center of the stuffing should reach 165°.

## ROASTING

1. Place turkey, breast side up, on a rack in a shallow roasting pan. Brush with melted butter, margarine or oil. If using an ovenproof thermometer, place it so the tip is in the thickest part of the inside thigh muscle and does not touch bone.
2. When two-thirds through the cooking time, cut band of skin at the tail or remove skewer holding drumsticks.
3. Check turkey for doneness with a meat thermometer. The temperature should be 180° and the juice should no longer be pink when you cut the center of a thigh.
4. If the turkey has turned golden brown but is not done, place a foil tent over the turkey if desired and continue roasting.
5. When the turkey is done, let it stand for 15 to 20 minutes before carving.

### Betty's Tips

#### DO-AHEAD

A whole turkey keeps frozen up to 1 year. Purchase when on sale and save for a special-occasion barbecue.

- 1 large onion, cut into eighths
- 2 small lemons, cut into fourths

## Fall Cheese Platter

PREP: 25 MIN

### Betty's Tips

#### SUCCESS HINT

For a pretty fall platter, choose several cheeses in varying colors. Cheese with salami or bacon creates an especially fall-looking leaf.

#### SERVE-WITH

To elaborate on the fall theme, serve cheese with sliced apples and pears. Dipping sliced fruit into citrus juice, such as orange juice, will prevent slices from turning brown.

16 slices (1 ounce each) assorted cheeses (such as Cheddar, Colby-Monterey Jack, Monterey Jack with jalapeño peppers and Swiss)

¼ cup hazelnuts (filberts)

Apple Cranberry Chutney (page 26), if desired

Crackers, if desired

1. Cut cheese with 2-inch leaf-shaped cookie cutter.
2. Place cheese on medium platter, overlapping leaves. Sprinkle hazelnuts on platter to look like acorns. Serve with chutney and crackers. 12 servings.

Cranberry Stuffing (page 22)  
12-pound turkey, thawed if frozen  
2 tablespoons butter or margarine, melted  
Cranberry-Apple Glaze (right)

1. Heat oven to 325°. Make Cranberry Stuffing. Stuff turkey just before roasting—not ahead of time. Fill wishbone area with stuffing first. Fasten neck skin to back with skewer. Fold wings across back with tips touching. Fill body cavity lightly. (Do not pack—stuffing will expand while cooking.) Tuck drumsticks under band of skin at tail, or tie together with heavy string, then tie to tail.

2. Place turkey, breast side up, on rack in shallow roasting pan. Brush with butter. Insert meat thermometer so tip is in thickest part of inside thigh muscle and does not touch bone. Do not add water.

3. Roast uncovered 3 hours 30 minutes to 4 hours. Thermometer will read 180° when turkey is done, and drumstick should move easily when lifted or twisted. Roast until juice is no longer pink when center of thigh is cut. Thermometer placed in center of stuffing will read 165° when done. If a meat thermometer is not used, begin testing for doneness after about 3 hours.

4. Make Cranberry-Apple Glaze while turkey is roasting. Brush glaze on turkey about 20 minutes before turkey is done.

5. Place a tent of aluminum foil loosely over turkey when it begins to turn golden. When two-thirds done, cut band of skin or string holding legs. When turkey is done, place on warm platter and cover with aluminum foil to keep warm. Let stand about 15 minutes for easiest carving.

6. To serve, brush again with glaze before carving. Cover and refrigerate any remaining turkey and stuffing separately. 18 servings.

## Foolproof Gravy

PREP: 5 MIN COOK: 5 MIN

### Betty's Tips

#### SUCCESS HINT

The trick to smooth, creamy gravy is to use a wire whisk when adding the flour to the drippings. Beat the drippings rapidly with the whisk while adding the flour, and you won't get lumps.

#### SPECIAL TOUCH

For added flavor, use vegetable cooking water, tomato juice, vegetable juice or wine as part of the liquid.

- 1/4 cup turkey drippings (fat and juices from roasted turkey)
- 1/4 cup Gold Medal® all-purpose flour
- 2 cups liquid (juices from roasted turkey, broth, water)
- Browning sauce, if desired
- 1/2 teaspoon salt
- 1/2 teaspoon pepper

**1.** Pour drippings from turkey roasting pan into bowl, leaving brown particles in pan. Return 1/4 cup drippings to roasting pan. (Measure accurately because too little fat makes gravy lumpy.) Beat in flour with wire whisk. (Measure accurately so gravy is not greasy.)

**2.** Cook over medium heat, stirring constantly, until mixture is smooth and bubbly; remove from heat. Stir in liquid. Heat to boiling, stirring constantly. Boil and stir 1 minute. Stir in a few drops of browning sauce. Stir in salt and pepper. 2 cups gravy.

#### VARIATION

You can vary the flavor of the stuffing by using other dried fruit in place of the dried cranberries. Try golden raisins, chopped prunes, dried cherries or dried blueberries.

- 2 tablespoons chopped fresh or 1½ teaspoons dried sage leaves
- 1 tablespoon chopped fresh or 1 teaspoon dried thyme leaves
- 1½ teaspoons salt

## *Slow Cooker Apple Pecan Bread Stuffing*

PREP: 20 MIN COOK: 5 HR

### *Betty's Tips*

#### **SUCCESS HINT**

Making soft bread crumbs is easy because you just tear the bread into small pieces. It's best to use a firm bread that is a couple of days old. Fresh, soft bread will give you a stuffing that is too moist and soggy.

#### **VARIATION**

A delicious meatless second meal can be made from any leftover stuffing. Simply shape the stuffing into patties, and heat in butter until brown on both sides. Serve with your favorite green veggie and juicy tomato slices.

- 4 cups soft bread crumbs  
(about 6 slices bread)
- 1 cup crushed saltine crackers  
(about eighteen 2-inch squares)
- 1½ cups chopped apples
- 1 cup chopped pecans
- 1 large onion, chopped (1 cup)
- 2 medium stalks celery, chopped (1 cup)
- ¾ cup vegetable or chicken broth
- ¼ cup butter or margarine, melted
- ½ teaspoon pepper
- ½ teaspoon rubbed sage
- 2 eggs
- Chopped fresh parsley, if desired

**1.** Spray inside of 2- to 3½-quart slow cooker with cooking spray. Mix bread crumbs, cracker crumbs, apples, pecans, onion and celery in cooker. Mix remaining ingredients except parsley until well blended; pour into cooker. Toss to coat ingredients.

Many varieties of sweet potatoes are available. Although the variety of sweet potatoes with dark orange skin is often labeled as "yams," true yams are not available in our supermarkets. The very light-colored sweet potatoes are not as sweet and are drier than the darker-skinned ones. We like the darker sweet potatoes (or "yams") for this dish.

### SERVE-WITH

While the turkey roasts in the oven, cook this Thanksgiving favorite in the slow cooker. If your home is this year's holiday gathering spot for family and friends, you can double or triple this recipe and cook it in a 5- to 6-quart cooker.

If you're pressed for time, you can purchase two 12-ounce bags of precut, washed fresh green beans. You'll find them in the produce section of your supermarket.

#### DID YOU KNOW?

Once cultivated only in Japan and Korea, shiitake mushrooms are now cultivated in the United States. The meaty flesh has a full-bodied, some even say steaklike, flavor. The stems are tough but add a wonderful flavor to stocks and sauces. (Discard the stems after they've been used for flavoring.)

2. Cook almonds in ungreased heavy skillet over medium-low heat 5 to 7 minutes, stirring frequently until browning begins, then stirring constantly until golden brown and fragrant.

3. Remove tough stems of mushrooms; cut mushrooms into ¼-inch slices. Heat olive and sesame oils in 12-inch skillet over medium heat. ## Betty's Tips

### VARIATION

Use 1½-inch cookie cutters to make bite-size biscuits and serve as an appetizer with red or green hot pepper (jalapeño) jelly.

### SPECIAL TOUCH

It's easy to get even your butter into the act of being festive. Slice chilled butter ¼ inch thick, and cut slices with mini-cookie cutters. Use cutters with open tops so you can push the butter through. Simple shapes, such as stars and hearts, work best. Place butter on waxed paper; refrigerate until ready to serve. Butter scraps can be softened or used in baking.

## Pesto Biscuits

PREP: 15 MIN BAKE: 12 MIN

- 2 cups Gold Medal all-purpose flour
- 3 teaspoons baking powder
- ½ teaspoon salt

- Finely shredded Parmesan cheese, if desired

1. Heat oven to 450°. Mix flour, baking powder and salt in large bowl. Cut in shortening and pesto, using pastry blender or crisscrossing 2 knives, until mixture looks like fine crumbs. Stir in just enough milk so dough leaves side of bowl and forms a ball.

Instead of passing the sauce separately, you may want to spoon it over the French toast slices and top with additional pomegranate seeds.
